

To  
**The Hon'ble Mr. David Mulford**  
**Ambassador of United States of America in India.**  
**New Delhi.**

**Dated 23/03/2005**

**Respected Sir,**

In view of the recent dilemma for not granting the diplomatic visa as well as to revoke business/tourist visa to Mr. Narendra Modi the Chief Minister of Gujrat was a **very positive, appreciative and legitimate decision taken by your State**, without catering for the sake of diplomatic relationship with India. The reason behind itself is a bold and unwanted truth, for which we the people of India who believe in humanity and peace do support your State's legitimate decision and on behalf of our organization we assure you that the decision was not only correct in the current tune, but also conducive for our country as well as yours.

In the past days, soil of Gujrat did produced personalities like Shri Mohondas Karamchand Gandhi, a great devotee of peace & humanity, now at present we witness Mr. Narendra Modi who can be identifiably clarified and compared with the historical scandalous commander Adlof Hitler of Germany who provoked Natzi-ism and Mr. Modi for provoking violent Hindu-wata or Hindu-ism, undoutfully leading to the riot of Gujrat in 2002.

Mr. Modi subdued by the United States of America is now shedding crocodile tears by glorifying himself through meaningless call of patriotism, not only to embarrass utterly with the feelings of Indians but also for the citizens of United States of America.

Lastly we should always pay respect to the constitution of that State and follow by their decision's to which he/she wants to travel. Once again I take the opportunity on behalf of our organization to thank you for not permitting Mr. Modi (**Emerging commander-in-chief of this era, responsible of violent hindu-watta crusade**) to land into the American soil thus unmasking the reality known to all of us which was being put behind the curtains using the magic wand by some Indian political barons.

Hopefull towards a everlasting prosperous bi-lateral relationship among India and United States of America.

**Thanking you with warm regards**

*M. Dewanji*
